

Meyer[®]
DRIVE PRO[™]

Get Year-round Performance From Utility Vehicles

Add a Meyer[®] Drive Pro[™] to your new or existing utility vehicle and get the perfect solution for plowing sidewalks, college campuses, institutions, long driveways or any space that larger vehicles can't reach. The full functioning contractor-grade plow, one-touch pistol grip controller and one-piece electrical plug make it a breeze to operate.

Drive Pro 6' & 6'8 fit the following:

- *Kubota RTV 900 & 1100 – all years*
- *Polaris Ranger 4x4 and 6x6 - 2009 and newer*
- *John Deere Gator XUV - 2008 and newer*

*Shown with
optional lights
and equipment.*

Built Tough. Industry's Best Warranty

This lightweight, commercial grade steel plow is built with Meyer's Reliable Over-time Construction (ROC) process. It shows in the details:

- (A) Heavy-duty trip springs provide the highest degree of protection
- (B) Robotically welded seams and cross-sections
- (C) Easy access grease points
- (D) Triple layered waterproof seals
- (E) Slot and tab construction

It's the reason we can offer our 3/5 year warranty,* the best in the business.

Patented Single Plug Connector

Marine style locking plug requires only one connection for fast mount/dismount of the plow. Features silver plated connections for improved corrosion resistance. All outside connectors are triple sealed against harsh environmental conditions. Spring loaded cap automatically closes and seals truck side harness when plug is removed.

Meyer Custom Molded Cover

Custom molded hydraulic cover allows easy access for drop speed adjustment. Protects from road salt and grime for reliability.

Pistol Grip Controller

Features one button functionality allowing you to raise, lower or angle the blade without pressing multiple buttons.

Add greater versatility to your utility vehicle with a Meyer Spreader.

Add a **Meyer Utility LPV Spreader** to your vehicle and get even greater versatility. It features spread widths from 4' to 20' and is available with a maintenance free 12V electric motor or a reliable 6.5 h.p. Briggs and Stratton gas engine.

Blaster 350 spreaders feature a large 1/2 h.p. direct drive motor to grind through large chunks of ice melt material and can easily be mounted using a utility bed adapter. Add a vibrator kit and spread salt or a salt/sand mixture.

Model	Part #	Moldboard Length	Moldboard Height	Moldboard Gauge	Vertical Ribs	Trip Springs	Cutting Edge	Plow Width At Full Angle	Power Angling Arms	Weight Complete
Meyer DP 6'-0'	09270	72"	22.5"	14	6	2	1/4" x 6"	64"	1-1/2" x 10"	345 lbs. w/o Mount and Clevis
