

Rough-Cutter

RCH 1365
RCH 1390
RCH 1690
RCH 16115

- Robust Construction
- Hydraulic Drive
- Power Steering
- Variable Speed
- Low Vibration
- Simple Operation
- Low Ground Pressure
- Simple Maintenance
- Easy Height Adjustment
- Truly Commercial
- Premium Engine Choice
- 13 or 16 Horsepower
- 65cm 90cm 115cm

The Kersten Rough-Cutter range has been designed for high output, low noise, low operator effort and less fatigue. The simple control layout allows the operator to concentrate on the forward progress of the machine. Ideal for cutting, in one pass, overgrown areas down to a mulch that will decompose quickly.

These mowers offer long service and low maintenance by using only premium components in their design and manufacture. Featuring variable speed hydrostatic drive allows the operator to change direction effortlessly without clutching. This benefit means peak performance is maintained no matter how thick the vegetation gets. An integrated differential lock means the machine just keeps going. There are two types of flails that offer the choice of high power rough cutting of material up to 50mm (2") or finer turf mowing. Large diameter, low ground pressure wheels offer a good ground clearance and amazing traction when the terrain gets tough.

Simple height adjustment on the front "puncture free" wheels means less time setting the machine before work. The Kersten "POWER STEER" feature means the operator has total control of this heavy duty cutting machine with just his finger tips. The all important safety features work well without impeding the operation. Low vibration is achieved by a special flail configuration and dynamically balanced shaft combined with the correct engine application.

Model	RCH1365	RCH1390	RCH1690	RCH16115
Engine	Honda 13hp Single cylinder four stroke petrol engine		Briggs and Stratton twin cylinder 16hp Vanguard petrol engine	
Drive System	Hydraulic twin motor variable speed drive system with integrated, automatic differential lock. 0-4kph			
Cutting Width	65cm (26")	90cm (36")	90cm (36")	115cm (46")
Handlebar	Adjustable height fully rubber cushioned			
Wheels	4.00 x 10	18 x 9.50-8	18 x 9.50-8	18 x 9.50-8
Optional Items	Electric start type flails	Dual wheels Rear roller in place of height adjustment wheels	Hand guards Wheel weights	Y type or boot
Warranty	12 Months fully commercial warranty
