Simple separation of the surface filling from debris using the filter box

- **Easily access through pedestrian gateways**
- **Powered wheel drive (ride-on option also available)**
- **Sweeps and collects debris**
- **Levels and presents the surface**
- **Removes contaminated material from the pile**
- **Redistributes filling**
- **Stands the grass pile up**
- **Prevents compaction**
- **Improves drainage**

Levelling, conditioning and presenting quickly

Removing contaminated sand and

<p>KERSTEN MODELS OF POWER UNITS AND SWEEPERS</p>				
<p>ATTACHMENTS FOR K-Line POWER UNITS</p>	<p>K-Line 820 Sweeping Machine 5.5hp Honda engine with hydraulic transmission (forwards only 3 km/h) - hydraulic drive to sweeper— manual angling — folding handlebars. Suitable for a single tennis court size area</p>	<p>K-Line 1500pro Power Unit only 6.5hp Briggs and Stratton Vector engine with hydraulic transmission (forwards and reverse 0-4km/h) - hydraulic implement drive—Kersten quick attach system. Suitable for a multi tennis court area</p>	<p>K-Line 2000/2000pro Power Unit only 9hp Honda engine with hydraulic transmission (forwards and reverse 0-7km/h) - variable speed hydraulic implement drive—Kersten quick attach system. Suitable for full size hockey or football area</p>	
	<p>Hydraulic Powered Brush Attachment Hydraulic drive-inboard drive motor-manual angling-fine height adjustment-easy to change brush assy.-Kersten quick attach system.</p>	<p>This machine is fitted with a 82cm sweeper as standard – (non-detachable without special kit)</p>	<p>75cm sweeper or 90cm sweeper (std)</p>	<p>100cm sweeper (std) or 125cm sweeper</p>
	<p>Side Gulley Brush. Available with belt drive or hydraulic drive-impact protection guard-adjustable for height and angle. Used for sweeping edges and under fences.</p>	<p>40cm Belt drive</p>	<p>40cm belt drive</p>	<p>40cm belt drive or 40cm hydraulic drive</p>
	<p>Collector. Supplied with height adjustable brackets to fit on the front of the hydraulic powered brush. Collects material from the sweeper.</p>	<p>82cm 40 litre capacity</p>	<p>75cm 35 litre capacity Or 90cm 50 litre capacity</p>	<p>100cm 60 litre capacity Or 125cm 80 litre capacity</p>
	<p>Filtration Box. Supplied with height adjustable brackets to fit on the front of the hydraulic powered brush. Separates debris from the sand or rubber filling returning clean filling to the surface</p>	<p>82cm Fitted with 6/10mm filter</p>	<p>90cm only Fitted with 6/10mm filter</p>	<p>100cm only Fitted with 6/10mm filter</p>
	<p>Uni-brush 250 Attachment Weight/ballast tray — storage stand-Kersten quick attach system. For levelling, presentation and conditioning of sand and rubber filled surfaces.</p>	<p>N/A</p>	<p>N/A</p>	<p>250cm folding brush Folds up to 1.07m</p>
	<p>Trailing Sulky Seat Adjustable seat and driving position. Attaches and detaches very quickly from the power unit.</p>	<p>Quick Attach Max Speed 3kph</p>	<p>Quick Attach Max Speed 4kph</p>	<p>Quick Attach Max Speed 7kph</p>

The *K-Line* series Surfacemasters are versatile multi purpose machines capable of carrying out all of the maintenance tasks on most types of sports surface especially sand or rubber filled artificial grass. Regular sweeping and collection of organic material from artificial surfaces is very important to ensure adequate drainage to prevents algae and moss from establishing. The hydraulic powered brush helps to remove infected filling material. The 2.5metre Uni-brush levels and conditions the surface covering full size hockey pitch in 22 minutes. Other attachments include snow ploughs and gritters. ***Change attachments in seconds.***
