	Trailing Sulky Seat Adjustable seat and driving position	Quick Attach Max Speed 3kph	Quick Attach Max Speed 4kph	Quick Attach Max Speed 7kph

The *K-Line* series Surfacemasters are versatile multi purpose machines capable of carrying out all of the maintenance tasks on most types of sports surface especially sand or rubber filled artificial grass. Regular sweeping and collection of organic material from artificial surfaces is very important to ensure adequate drainage to prevents algae and moss from establishing. The hydraulic powered brush helps to remove infected filling material. The 2.5metre Uni-brush levels and conditions the surface covering full size hockey pitch in 22 minutes.

Change attachments in seconds.
